*This Christmas season we pray that the Lord would bless you and your family as you consider giving.*

In this catalog you will find true stories of men, women, and children who have been blessed by the various ministries of BMDMI. We ask that you would consider taking time with your family each night to read one story and pray over that specific ministry. After reading through this gift book, we ask that you would prayerfully consider if any of the stories particularly resonated with you. If so, your prayers and Christmas donations towards that ministry are appreciated.

# The Emmanuel Home of Protection

Diriamba, Nicaragua

At 15, Yilimara came to live at the Home with Bismarck. Due to the abusive circumstances of her pregnancy, Yilimara admitted to feeling very little love towards her son, who, because of the lack of affection, was completely non-verbal and inactive.

staff reported a change in Yilimara's personality and in her relationship with Bismarck. One night a staff member went in to check on Yilimara and found her kneeling beside her bed, saying her nightly prayers, with Bismarck at her side. Yilimara continues to grow and overcome, and Bismarck is now a very verbal young child, active and excited to interact with those around him.

Yilimara was 9 when her mother died and she went to live with her father. When Yilimara was just 12 years-old, her family encouraged her to start spending time with a 45 year-old man. Yilimara became pregnant with this man, and she gave birth to her son, Bismarck. After being sent to live with this man, Yilimara sought help.

The staff at the Home helped care for Yilimara and worked with her to help her overcome her trauma, and she began to flourish. What ultimately brought the biggest change to Yilimara and Bismarck's life, however, was the time she spent in discipleship and Bible training. She read through the book of John with the other girls at the Home, and

# The Good Shepherd's Children's Home

Zamorano, Honduras

Early in 2020, we established a Task Force to help bring some much-needed improvements to campus of our Good Shepherd Children's Home. Nine people, with over 77 combined years of visiting the children, were called

to use their giftedness to serve the children and work closely alongside our amazing Honduran staff. We've been so excited to see a rise in child sponsorships, even in the midst of very few teams coming to visit. We've launched a successful ongoing Amazon Charity Wishlist to help alleviate many expenses from our budget. A new Team Captain Packet was another project the Task Force executed to set up teams

for success in serving our children. Another fun project that we've made updates to has been our Christmas gift drive, in which we arranged donors, wishlists, and logistics to ensure each child has a Christmas gift they love. Finally, we've hosted three Task Force teams to help with some larger projects onsite, as well as vision cast and hold our first child sponsor trip to give sponsors the opportunity to visit with their kids! It has been our privilege and honor to serve the children we love so much.

# Hospital Bautista

Guaimaca, Honduras

Ramona Pavon came to the Hospital Bautista for a gynecological surgery. Thankfully, her surgery was successful and she only needed to be kept at the hospital for one night. The morning after her surgery, while waiting to be discharged, Ramona heard the gospel presented by Chris and our Licensed Nurse, Johnathan. In the room with Ramona were other ladies who had also had various surgeries, and each of them shared with Ramona and prayed during the gospel presentation. After Ramona heard about Jesus, she decided to accept Him as her Savior that day. What a joyful morning it was in that hospital room. Ramona not only received physical healing from the David Rumph Surgical team, she received the Spiritual healing that we all need in order to have eternal life with our Lord and Savior.

# The Good Shepherd Christian Academy

Zamorano, Honduras

Elmer is a 15 year-old student who began attending GSCA on scholarship when he was 5 years-old. In 2020, during the pandemic, it became clear that Elmer was about to fail his final year at GSCA. After meeting with Elmer to see what was happening, we became aware that our 15-year old student was having to work to provide for his family financially. We continued to encourage him to complete his schooling, so he could provide an even better future for his family. Through a lot of hard work and dedication, Elmer was able to complete his studies and was a part of the first bilingual graduating class at GSCA.

Since Elmer was able to complete his education at GSCA, there will be many new

opportunities for him in the future. In Honduras, learning English is about the equivalent of having a college degree. Now that Elmer has graduated, his little sister Zoé is currently attending GSCA and there are many others like them who are currently on scholarship, working hard to finish school and striving for a better future.

## Guatemala Ministry

Angel is an 11 year-old boy. In the summer of 2021 he lost both his two older brothers in gang activity and his father in an accident -- all within two weeks. Our Pastor, Julio, began working with Angel and including him in Church work with hopes of keeping him away from the gangs.

During the Pandemic Angel's family also lost their home. In the meantime, the church had been providing them with a place to live, but Pastor Julio wanted to build them a home and proposed the project to us. Coincidentally, Hattiesburg Community Church was coming a

month from that time for a short-term mission trip and were still needing a project to work on. Like only God can, He quickly orchestrated funding for not only the land but also the house.

Things started moving quickly and preparation was under way. Pastor Julio engaged Angel in the project from the beginning, not telling him who the home was for. Despite several setbacks in the process, the task of building Angel and his family a home was completed in 4 short days. Angel worked right alongside the men all week, still without a clue that at the end of the week the home would be

turned over to him and his family. As the team finished, Pastor Julio invited the Church out for a home dedication and then revealed the home was for Angel and his family.

## Mount of Olives Christian School

San Gregorio, Nicaragua

Judian began studying at The Mount of Olives Christian School in 2002 when she was in first grade. She was very timid, and wore a wool hat to school because she was going through chemotherapy and had lost her hair.

As Judian continued through school, her condition worsened. Her leukemia caused her a lot of health issues -- many of which she needed special treatment for. Eventually, teachers at the school began to donate money to Judian's family to help cover the costs of her treatments that her family could not afford.

After turning 15, the public hospital could no longer care for Judian. It was then that a sponsor from the US began sending money to pay for her health insurance so that she could continue getting health care.

Despite the difficulties in her life, Judian always continued her education, and in 2012 she graduated from the Mount of Olives Christian high school. Her schooling at the MOCS inspired her to continue her education through a university. After graduating in 2019, Judian found a job working in the Diriamba hospital laboratory, inspired by her desire to help others through medicine.

The Bible Institute currently has 11 young men enrolled as full-time students. One of these students is Jose.

Jose makes huge sacrifices to be able to study at our Bible Institute. Every Monday he leaves his home at 12 p.m. to start walking -- he then walks for 2 hours to get to the only bus

station near him that will get him to Las Crucitas. In addition to the tiresome journey he makes, Jose has had to make sacrifices in his family life as well. Jose comes from a catholic background, and his family members are all in complete disagreement with his choice to be an evangelical pastor. They had hoped that he would be a Catholic priest. However, Jose's desire

to follow the Lord's calling on his life has not waived, and he continues to study the Word at the Bible Institute despite these challenges. In response to his family's lack of support, Jose has simply said again and again: "I want to serve my Master."

Jose's preaching has improved greatly since he first arrived at our Bible Institute. Our prayers for all the students is that God will use them in many mighty ways.

## Dwight Carr Bible Institute

Diriamba, Nicaragua

Daniel Espinoza started as a student in our Bible Institute who came from San Blas, which is a small village in Nicaragua.

After passing the three-year program that we have for church leaders and pastors, Daniel felt called by God to become a pastor. With his wife, young daughters, and the training and education he received from the Bible Institute, he moved to el Madroño. This village is not an easy place to live, but with lots of prayer and the Scriptural knowledge he had gained, Daniel started a church there.

It is evident that the Lord is using Daniel's church to multiply His disciples. Three of the men who worship in Daniel's church are

now students at the Bible Institute and are a great support to their church and the ministry Daniel does as pastor. When we are training our students for ministry at the Bible Institute, we always pray that our students will be

able to effectively evangelize and that they would multiply the Gospel through discipleship.

But who am I, and who are my people, that we  
should be able to give as generously as this?  
Everything comes from you, and we have given  
you only what comes from your hand.  
1 Chronicles 29:14 (ESV)

And Jesus came and said to them, “All authority in heaven and on earth has been given to me. Go therefore and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, teaching them to observe all that I have commanded you. And behold, I am with you always, to the end of the age.”
