INDEPENDENT AUDITOR'S REPORT

Board of Trustees Baptist Medical and Dental Mission International, Inc. Hattiesburg, Mississippi

Opinion

We have audited the accompanying financial statements of Baptist Medical and Dental Mission International, Inc. (a not-for-profit corporation) (the "Mission"), which comprise the statements of financial position as of September 30, 2022 and 2021 and the related statements of activities, functional expenses and cash flows for the years then ended and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Mission as of September 30, 2022 and 2021 and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Mission and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Mission's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Mission's internal control. Accordingly, no such opinion
 is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Mission's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS

Note 1. Nature of Activities and Significant Accounting Policies

Nature of Activities

Baptist Medical and Dental Mission International, Inc. (the "Mission") is a nonprofit corporation organized under the laws of the state of Mississippi. It has elected tax-exempt status under Internal Revenue Code Section 501(c)(3) and is exempt from both federal and state income taxes. The Mission seeks to provide quality medical and dental care to the impoverished people of the remote villages of third-world nations and teach preventative measures to be taken to avoid disease and death. Established on Baptist Christian beliefs, the Mission's primary goal is directed toward the preaching of God's Word and the theological preparation of new preachers through established Bible institutes and churches.

The following is a summary of significant accounting policies:

Basis of Preparation

The accompanying financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America, which requires the Mission to report information regarding its financial position and activities according to the following net asset classification:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions and may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of the Mission's management and the Board of Trustees.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Mission or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated that resources be maintained in perpetuity. Donor restricted contributions are reported as increases in net assets with donor restrictions. When a restriction expires, net assets are reclassified from net assets with donor restrictions to net assets without donor restrictions in the statements of activities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Mission considers all cash accounts, which are not subject to withdrawal restrictions or penalties and money market funds purchased with an original maturity of three months or less, to be cash and cash equivalents.

Years Ended September 30, 2022 and 2021

NOTES TO FINANCIAL STATEMENTS

Note 1. Continued

<u>Inventories</u>

Donated inventories, consisting of medical supplies, pharmaceuticals and similar items, are recorded at fair market value as of the date of the gift. All other inventories purchased by the Mission are recorded at cost. Inventories are stated at the lower of cost (first-in, first-out method) or market.

Investments

Investments are reported on the statements of financial position at fair value and are classified as short-term investments. Net investment income is reported in the consolidated statements of activities and consists of interest and dividend income, realized and unrealized capital gains and losses, less external investment expenses.

Property and Equipment

Donated physical property and equipment are recorded at fair market value as of the date of the gift. All other property and equipment purchased by the Mission are recorded at cost. Depreciation is computed using the straight-line method over the estimated useful lives of these assets. The useful lives are estimated as follows for these assets:

Office buildings, hospitals and churches	20 – 40 years
Equipment, furniture and fixtures	5 — 7 years
Automobiles	5 years
Mission compound and improvements	10 years
Bible Institute compound and improvements	10 years

The Mission incurs maintenance costs on its property and equipment. Maintenance costs that extend the life of the asset, materially add to its value or adapt the asset to a new or different use are capitalized in property and equipment and are depreciated over their estimated useful lives. All other repair and maintenance costs are expensed as incurred.

Asset Impairments

In accordance with Accounting Standards Codification ("ASC") Topic 360, Property, Plant and Equipment, the Mission periodically evaluates whether current facts or circumstances indicate that the carrying amount of its depreciable assets to be held and used may not be recoverable. If such circumstances are determined to exist, an estimate of undiscounted future cash flows produced by the long-lived asset or the appropriate grouping of assets is compared to the carrying value to determine whether impairment exists. If an asset is determined to be impaired, the loss is measured based on the difference between the asset's fair value and its carrying value. An estimate of the asset's fair value is based on quoted market prices in active markets, if available. If quoted market prices are not available, the estimate of fair value is based on various valuation techniques, including a discounted value of estimated future cash flows. The Mission reports an asset to be disposed of at the lower of its carrying value or its estimated net realizable value.

Years Ended September 30, 2022 and 2021

NOTES TO FINANCIAL STATEMENTS

Note 1. Continued

Severance and Termination Liability

Labor laws for certain third-world nations in which the Mission operates require severance amounts to be paid by employers upon termination of employees without cause. Additionally, management's interpretation of the labor laws provides that although these amounts are payable at termination or certain other events, the employee becomes entitled to these amounts upon achieving certain employment criteria such as years of service milestones. The Mission annually evaluates the payments of severances in an effort to manage the liability.

Management of the Mission evaluated the expected ultimate obligation to pay severance to certain full-time employees and recorded a severance and termination liability of \$-0- and \$2,973 at September 30, 2022 and 2021, respectively. This liability is included in accrued payroll and withholdings in the accompanying statement of financial position and related expenses are recognized in the accompanying statements of activities and functional expenses.

Contributions

Contributions are reported as restricted support if they are received with donor stipulations that limit the use of the contribution. When a donor's stipulated time restriction expires or the restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from satisfaction of program restrictions. Donor restricted contributions, whose restrictions are met in the same reporting period, are reported as unrestricted contributions.

Contributions and Nonfinancial Assets

The Mission receives a significant amount of contributed services and medical supplies from volunteer teams that carry out its mission. The voluntary services that are recognized consist of services performed by individuals with specialized skills such as doctors, dentists, ophthalmologists, nurses, medical technicians, engineers and construction workers. Contributed services and supplies are recorded at their estimated market value in the Mission's statement of activities as contributions of nonfinancial assets. See Note 5 for further explanation.

Accounting Pronouncements Not Yet Adopted

In March 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. The standard requires the recognition of lease assets and lease liabilities by lessees for those leases classified as operating leases. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition. The standard requires lessors to classify leases as either sales-type, finance or operating. A sales-type lease occurs if the lessor transfers all of the risks and rewards, as well as control of the underlying asset, to the lessee. If risks and rewards are conveyed without the transfer of control, the lease is treated as a financing lease. If the lessor does not convey risks and rewards or control, an operating lease results. In June 2020, FASB issued ASU 2020-05, *Revenue from Contracts with Customers (Topic 606)* and *Leases (Topic 842): Effective Dates for Certain Entities*, which deferred the effective date of ASU 2016-02 to annual reporting periods beginning after December 15, 2021, with early adoption permitted.

The Mission is currently assessing the impact of adopting this ASU and its effect on the Mission's financial position or results of operations.

Years Ended September 30, 2022 and 2021

NOTES TO FINANCIAL STATEMENTS

Note 2. Liquidity and Availability and Going Concern

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of September 30, 2022 and 2021 include the following:

	2022	2021
Financial assets at year-end:		
Cash and cash equivalents	\$ 1,033,914	\$ 1,190,353
Short-term investments	511,518	11,658
Less amounts not available to be used in one year:		
Net assets with donor restrictions not available		
within one year	7,530	7,530
Financial assets available to meet general expenditures over the next 12 months	\$ 1,537,902	\$ 1,194,481

The Mission is heavily dependent upon contributed supplies, services and financial support to carry out its operations, which includes significant international travel. In carrying out these operations, the Mission has incurred deficits in operations in multiple years and has from time to time used net assets with donor restrictions to meet current cash flow needs. The Mission incurred a surplus in cash flows from operating activities of \$1,035,434 for 2021. In 2022, the Mission incurred a surplus in cash flows from operating activities of \$549,469.

During 2021, the Mission received an individual unrestricted cash contribution of \$1,000,000. Additionally, the Mission obtained two rounds of Paycheck Protection Loans for \$226,000 each, of which the first was forgiven during fiscal year 2021 and the second during fiscal year 2022. The financial assets available to meet general expenditures over 12 the next months in the above table consists of net assets with donor restrictions primarily associated with mission trips and operations that will occur over the next 12 months. Because of the nature of operations for the Mission, historically all restricted contributions received are released from restriction in the following year in the normal course of the Mission's operations and, therefore, are considered appropriate for inclusion above.

Management has evaluated the Mission's ability to continue as a going concern for a reasonable period of time, which involves making judgements about inherently uncertain future outcomes of conditions and events. Management considered both quantitative and qualitative information inclusive of the above conditions and events identified and believes that these circumstances can be substantially remediated and thus it is not probable that the Mission will be unable to meet its obligations as they come due for a reasonable period of time. Subsequent events may result in outcomes that are inconsistent with judgments that were reasonable at the time they were made.

Note 3. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurements and Disclosures, defines fair value, establishes a hierarchal disclosure framework for measuring fair value and requires expanded disclosures about fair value measurements. The provisions of this statement apply to all financial instruments that are being measured and reported on a fair value basis.

Years Ended September 30, 2022 and 2021

NOTES TO FINANCIAL STATEMENTS

Note 3. Continued

Financial assets and liabilities recorded on the consolidated statements of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments or derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

Following is a description of the valuation methodologies used for assets measured at fair value, on a recurring basis. There have been no changes in the methodologies used at September 30, 2022 and 2021.

Mutual funds: Valued based on market value of its underlying investments, including debt and equity securities, and other observable inputs other than Level 1 pricing (Level 2).

As of September 30, 2022 and 2021, the mutual funds were valued at \$10,850 and \$11,658, respectively.

Depreciation expense was \$379,371 and \$412,271 for the years ended September 30, 2022 and 2021, respectively.

Years Ended September 30, 2022 and 2021

NOTES TO FINANCIAL STATEMENTS

Note 5. Net Assets

Net assets with donor restrictions as of September 30, 2022 and 2021 were available for the following purposes:

		2022	2021
Administrative	\$	29,531	\$ 25,472
Missionaries		619,380	651,898
Teams		239,969	222,901
Orphanages		157,710	186,564
Hospital		50,291	117,825
Bible Institute		92,022	57,032
Food banks		29,340	38,852
	_ \$_	1,218,243	\$ 1,300,544

Donor restricted contributions, whose restrictions are met in the same reporting period, are reported as unrestricted contributions. Contributions recognized during the years ended September 30, 2022 and 2021 were as follows:

	2022	2021
Contributed nonfinancial assets Cash contributions with donor restrictions	\$ 1,713,360 936,928	\$ 1,052,055 1,026,180
Restricted contributions reported as unrestricted	2,650,288	2,078,235
Cash contributions without donor restrictions	 3,044,810	2,841,044
Total contributions without donor restrictions	5,695,098	4,919,279
Contributions with donor restrictions	1,218,243	1,300,544
Total contributions	\$ 6,913,341	\$ 6,219,823

From time to time the operations of the Mission have resulted in negative changes in net assets without donor restrictions and, over a period, these negative operations have resulted in the Mission relying on the use of donor restricted funds to meet cash flow needs. As of September 30, 2022 and 2021, amounts needed to replenish donor restricted funds totaled approximately \$-0- and \$181,000, respectively.

For the years ended September 30, 2022 and 2021, contributed nonfinancial assets recognized within the statement of activities included:

	2022	2021
Voluntary services - medical	\$ 948,246	\$ 670,624
Voluntary services - dental	32,000	4,800
Voluntary services - other	408,060	116,310
Medical supplies	316,530	242,768
Bibles	 8,524	17,553
Total contributed nonfinancial assets	\$ 1,713,360	\$ 1,052,055

Years Ended September 30, 2022 and 2021

NOTES TO FINANCIAL STATEMENTS

Note 5. Continued

The Mission recognized contributed nonfinancial assets within revenue, including medical services, dental services, other specialized voluntary services, medical supplies, eyeglasses, bibles and labor. Unless otherwise noted, contributed nonfinancial assets did not have donor-imposed restrictions or the related restrictions were met in the same reporting period. All contributed nonfinancial assets are also utilized and not sold for a profit.

Contributed services include medical services, dental services and veterinary services. The Mission attempts to value professional services at an amount equal to what a patient would be charged in their country. The Mission recognizes the difficulty in valuing these services in Honduras and Nicaragua due to both countries having a socialized medical system. Therefore, professional services are valued and are reported at approximately 30-35 percent of the value of the same service if it was provided in the United States. Other specialized voluntary services include team members and volunteers who support the professionals. These other specialized voluntary services are valued at minimum wage. During 2022 and 2021, these services were only performed in Honduras, Nicaragua and Guatemala.

Contributed medical supplies include prescriptions and eyeglasses. In valuing these supplies, the Mission estimated the fair value on the basis of estimates of wholesale values that would be received for selling similar products in the United States.

Contributed bibles are valued at a rate of \$2.75, which represents the lowest retail price among the various countries being provided services.

Note 6. Line of Credit

The Mission maintains a line of credit agreement with a bank, which permits borrowings up to \$500,000. This line of credit was renewed in September of 2022 and matures in September of 2023. Outstanding borrowings bear interest at a variable rate based on prime lending rate (4.75 percent at September 30, 2022 and 2021). The line of credit is collateralized by property and equipment. The Mission had outstanding borrowings of \$-0- and \$150,000 on this line as of September 30, 2022 and 2021, respectively. There were \$500,000 of additional available borrowings at September 30, 2022.

Note 7. Concentration of Risk and Contingencies

The Mission maintains deposits at several financial institutions. Deposits at each domestic institution are insured by the Federal Deposit Insurance Corporation up to \$250,000. Based on this provision, the Mission had approximately \$656,000 in excess of insured limits held in domestic institutions as of September 30, 2022. The Mission also had approximately \$500,000 of uninsured funds on deposit with a nonprofit foundation providing investment management services. At September 30, 2022 and 2021, the Mission held cash in foreign banks of approximately \$95,000 and \$71,000, respectively, which are not subject to depositor's insurance. Changes in exchange rates could also adversely impact the financial stability of the Mission's foreign deposits.

In addition, the Mission has assets and operates in foreign countries; these countries encounter political volatility and economic instability from time to time that could affect the Mission's operations.

Years Ended September 30, 2022 and 2021

NOTES TO FINANCIAL STATEMENTS

Note 8. Benefit Plan

The Mission has a defined contribution benefit plan (the "Plan") for employees who meet the eligibility requirements set forth in the Plan. The Plan is a simple IRA set up for each employee and covers full-time employees who have completed one year of service. Employees may defer up to \$10,000 of their compensation. The Mission is not required to make contributions to the Plan and any contributions are at the discretion of the Board. The contributions to the Plan were approximately \$25,000 and \$17,000 for the years ended September 30, 2022 and 2021, respectively.

Note 9. Paycheck Protection Program Loan

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security ("CARES") Act was enacted to, amongst other provisions, provide emergency assistance for individuals, families and businesses affected by the COVID-19 pandemic. Using outside legal counsel, management determined that the Mission qualified under the Paycheck Protection Program ("PPP") within the CARES Act and on April 14, 2020, the Mission received a PPP Loan which approximated \$226,000. In February 2021, the Mission applied for and received a second round PPP Loan under the Economic Aid to Hard-Hit Small Businesses, Nonprofits and Venues Act ("Economic Aid Act") which approximated \$226,000.

Current rules stipulate that some or all of the PPP Loan will be forgiven if the sum of payments made during the covered period (either the eight-week or 24-week period after the distribution date) for payroll, building rents and utilities, and state taxes, equal or exceed the PPP Loan amount. The Mission received confirmation of forgiveness for the first round PPP Loan in August 2021. The total PPP Loan from the first round is included in revenue as a gain on debt forgiveness in the accompanying statement of activities for the period ended September 30, 2021. The Mission received forgiveness of the second PPP loan in January 2022, and this amount is included in revenue as a gain on debt forgiveness in the accompanying statement of activities for the period ended September 30, 2022.

Note 10. Risk and Uncertainties

On March 11, 2020, the World Health Organization declared COVID-19 to be a pandemic. In response to the pandemic, on March 14, 2020, the United States Government applied a travel ban to multiple countries and subsequently issued numerous executive orders in an effort to reduce community spread of the virus and protect America's most vulnerable citizens. As a result of the travel bans, executive orders and general response to concerns for community spread, the Mission shut down all travel beginning in 2020. This ban significantly curtailed contribution efforts, as many contributions are associated with Mission travel. International travel reopened in stages beginning in January 2021. The Mission continues to experience increased costs associated with managing the pandemic, such as shipping cargo, personal protective equipment and COVID-19 testing kits. The full impact of the public health crisis on the Mission cannot be estimated with any degree of certainty at this time and will depend upon the duration of the public health crisis and the response from both state and federal governments.

Note 11. Subsequent Events

The Mission has evaluated events through August 11, 2023, which is the date the financial statements were available to be issued, for events requiring recognition or disclosure in the financial statements for the year ended September 30, 2022.
